# WHAT IS FSAE?

Formula SAE is an international organization that hosts an annual student competition, challenging collegiate teams to design and build formula-style race cars. These competitions provide a platform for teams to showcase their expertise and experience, both on and off the track. Off-track events focus on evaluating a team's engineering practices, their understanding of the vehicle, and their business acumen. On-track events push the vehicles to their limits and truly test the teams' engineering prowess.

## WHO WE ARE

We are Grizzlies Racing, a Formula SAE team based at Oakland University in Rochester, Michigan. Our team consists of dozens of diverse and motivated students who share a passion for motorsports and hands-on learning experiences. Our activities cover a wide array of disciplines, such as engineering, business operations, management, and more. Our primary objective is to equip our members with experiences that go beyond their time at the university, ensuring they are well-prepared for their future careers.
